

A.D.'s Boast Fine Record in Sports

During the past school year the Alpha Deltas have continued to place many men on the College's varsity athletic squads.

Last fall found Chuck Mosher playing varsity halfback on the football team. Chuck, a sophomore, had a good season and is assured a varsity position again next year.

On the soccer field Spen Warnick and Dick Munro held down varsity positions. Spen was goal-tender while Dick played center halfback. Dick has been elected captain of next year's squad.

Gari Clough was a member of the cross country team and proved his ability in helping the hill and dalers have a successful season.

On the basketball court, 6 ft. 4 in. Spen Warnick returned as first string center for the second year in succession. Spen was having a fine season until put out of action when he was injured in an automobile accident over Christmas vacation.

Whitey Reiners was one of the college's top swimmers and established two new school records as the swimming team had its best season in its history, winding up with a 9 and 1 record. Whitey shattered the school records in the 200-yard backstroke and the 50-yard free-style. He was also a member of the record smashing 440-yard relay team.

As this issue of the Alpha Delt goes to press, the spring athletic teams are in midseason and the A.D.'s on the various rosters are in prominent spots, indeed.

With the graduation of Al Wade last June, the A.D. keystone combination on the baseball team has been broken up. However, Dick Munro has returned as varsity shortstop for the second year.

The varsity lacrosse team has been bolstered by Ben Thelin. Ben is playing attack and is the second highest scorer on the squad. Ben had a very successful season last year when he captained the freshman lacrosse squad.

The cindermen have been aided in the high jump event by 6 ft. 4 in. Whitey Reiners. This is the first season Whitey has been in this event and has more than proven his ability.

Al Scott is a member of the golf team. It is his first year on the squad and he is rapidly improving. The loss of Spen Warnick has been sorely felt by the squad as he would have returned as no. 2 man this year.

Commencement Weekend June 9-11

We are hoping for an unusually large turn out of Alumni Brothers over Homecoming Weekend. Last year's weekend was, we think, a success. Let's make a record turn out this June.

Integration and cooperation between the Alumni and the Chapter are very important to continued existence and success. In all probability the events for the weekend will include buffet suppers Friday and Saturday evenings, a welcome home beer party on Friday night and a Tea and Saturday afternoon. We plan to have a good weekend awaiting you and your families. We do hope to see many of you with us then.

Freshmen Sports

Freshman A.D.'s were represented in three sports this year: basketball, lacrosse and swimming.

Ed Kraemer contributed his 6 ft. 4 in. to the basketball squad and played very well from his center position.

Tony De Bello is playing outstanding lacrosse on the J.V. squad. Tony, who is a very fast and alert player, should be playing with the varsity next year.

On the freshman swimming team, Johnnie Boardman has proven his worth. Johnnie should also make the varsity team next year.

Seniors

(Continued from Page 1, Col. 1)

tainly miss the company of Stu and Sue and we look forward to seeing them back here with us from time to time in the future.

James H. Scott of Milton, New York, a Geology Major. Former President of the house and more recently chairman of the initiation committee, Jim and his '36 Chevy heap, will certainly be missed. Jim has recently been given a job working in the Geology Department of R.P.I. We wish Jim all the luck in the world and hope he will be able to keep all the trilobites and graptolites in line.

Counsellor Elected

Bro. Dudley Hill '07 was reelected as the Union Chapter Resident Counsellor for the forth-coming year. Dud has been Counsellor for five years now and it is a privilege to have him with us. The Chapter is looking forward to seeing much of Dud in the coming year.

HELP Student

(Continued from Page 2, Col. 2)

American students are different from their Danish colleagues in their appearance but I think, after having been together with American students for quite some time, that the difference is only in the appearance. Danish students under an American educational system would be like American students. The difference lies in the two educational systems. The very intense teaching, which is characteristic of my country and the American more liberal form of education at universities and colleges, where the social life among students is more strongly emphasized, is not for me to discuss the advantages and disadvantages of, I only want to emphasize that I found that American students, because of their education, are so liberal, that they take a foreign student into their midst without questioning and in such a natural way, that one immediately feels at home.

Being a liberal arts student, for the reason this line provides the most opportunities to learn the English language and learn about the American people, I must admit that it is very easy to follow the courses and obtain fairly good marks without studying very hard. When I return this summer, I intend to study electrical engineering, at the Engineering Institute in Copenhagen, an education course of five years. By the time I graduate, I will be 25 years old. In addition to my five years of education are the two years of military service.

At last I would like to add some remarks about fraternity life. Before I came to the U.S., I did not know anything about fraternity life, except that it was a group of students living together. But now I can say that the fraternities play a very important part in the education of the students. They teach their members, throughout the years they live at the house, how to act properly, and accept responsibility.

Chapter News

The House elected representatives to the convention.

The Chapter has chosen Bros. Charles Mosher and James Hannan, both of the class of '53, to represent it's interests at the 119th annual convention at Williams. Bro. Peter Ten-Eyke, Alumni treasurer, has been elected to represent our Alumni Association.
