

WORKING PARTY FOR THE LAWN

LETTER FROM GERMANY

(Continued from page 3)

show a concerted drive to scare the Americans into going home.

In comparing Communism and Fascism I can see little difference in their basic philosophy of force. However, in spite of what is happening now, I do not feel that force (in the fighting sense) will be exerted in Western Germany when the Soviets are having so much success in overrunning foreign governments without it. When and if it does come I look for it in the Middle East.

It is undoubtedly true that the younger generations of the Soviets have been rather thoroughly indoctrinated. They believe most of what they have been told. Also history shows us that when large armies are well equipped and efficiently trained fighting comes next. While the U.S.S.R. internal economy apparently is not now ready for war, it will be before long. Consequently, if the present trend continues, the 1950's might see a conflict which will change the face of the world.

May the American people see clearly this eventually, stop hoping and act. From present indications it would appear that the government if not the people, are aware of the situation. Just where the line will have to be drawn, I do not know, but it seems clear that we will have to arm now and then draw the line against Communism at some definite point."

ALUMNI

(Continued from page 1)

Army but returned to pursue his A.B. degree. At present the Vice President of the Chapter he has been very active in the house.

Dick Raymond comes from a long line of Delts. His home is in East Aurora, N. Y. A graduate of the Park School in Buffalo, Doc had a few years in the Navy and a breather at Cornell before he came to Union for the degree of Bachelor of Arts. Dick was a candidate for the football squad last fall a member of the hockey team in the winter and at present has just completed a tour with the Student Council. It is rumored that Dick plans graduate work at Wells College.

Jim Wheeler has been tinkering with school for some time now. He prepped at Williston Academy and came to Union as a member of the class of '45. He was side-tracked for some time after entering a recruiting station instead of a bar but now Jim has made certain that he would not make the same mistake again. This Spring he is a member of the golf team. In spare moments he quotes Shakespeare and Burma Shave signs and puts the finishing touches to his A.B. slab.

Take 'em away Alumni they are all yours.

THREE MORE MEN
PLEGGED

Pledge Class Now Four

The Chapter now boasts of four pledges. We think they are pretty good and they certainly show up the actives in the matter of scholarship. The average for the pledge class was announced by Brother Williams as 2.510.

Pledged last Fall was Stuart McAllister. He came to Union from Amherst Central High School and lives in Snyder, N. Y. While at High School, Stu. was president of the Student Council and since he has been at Union he has already been elected to the Council for one term. A candidate for the football team next Fall, Stu is studying Electrical Engineering but has not yet decided definitely on his major subject.

Graham Fisher who comes all the way from Miami in Florida is an economics major. He attended Irving School in Terrytown before coming to Union and he plays an excellent game of softball.

Alfred Meneely attended Princeton High School in his home town, where it is rumored there is another University. He is taking the road followed by all Pre-Medical students at Union.

The third man pledged this Spring was Hanford Peter Salmon of Oneida N. Y. He graduated from Oneida High School, arrived at Union with a scholarship and intends to teach science in a few more years.

We hope that when the Alumni Brothers come back at Commencement time they will meet all these lads. We think the impression will be very favorable.

MISCELLANY

(Continued from page 2)

Brother Williams announces that the House average for the first part of the Semester was 2.411. This is an increase of 0.21 over the last figure but is not yet up to the standard set during the middle of the first semester when the average was 2.45. No figure for the College as a whole has yet been computed.
